Skills

- Next.js
- React
- TypeScript
- JavaScript
- Node.js
- Express.js
- MongoDB
- Tailwind CSS
- JWT Authentication
- Stripe
- Git
- GitHub

Self-taught Full-Stack Developer passionate about building scalable web applications using Next.js, React, TypeScript, Node.js, MongoDB, and Stripe. Experienced in developing secure authentication systems, REST APIs, and responsive user interfaces. Strong problem-solving skills with a focus on writing clean, maintainable code and continuously learning modern web technologies.

Education

GOVT H.S.S. Tuvvur	Higher Secondary (12th) • 60% Commerce
Tuvvur, Malappuram, Kerala • 2023 - 2025	

Projects

Aven – Full-Stack E-commerce Platform

- Built a full-stack e-commerce platform using Next.js, TypeScript, MongoDB, and Stripe, featuring product browsing, shopping cart, secure checkout, and order management.
- Implemented JWT authentication, Next.js Server Actions, Stripe Checkout with webhooks, protected routes, and a responsive user interface for a seamless shopping experience.

CineScope – Full-Stack Movie Discovery Platform

- Developed a full-stack movie discovery application using Next.js, React, TypeScript, MongoDB, and the TMDB API, enabling users to browse trending movies, search the catalog, and manage personal watchlists.
- Implemented JWT authentication, Next.js Server Actions, protected routes, and a responsive interface optimized for performance and user experience.

InkFlow – Full-Stack Note-Taking Application

- Built a full-stack note-taking application using React, Node.js, Express.js, MongoDB, and Tailwind CSS, allowing users to create, edit, organize, and delete personal notes securely.
- Developed secure JWT authentication, protected REST APIs, and complete CRUD functionality while delivering a responsive and intuitive user experience.
